

Capital Hash House Harriers – Run 2036 - Centrefold – Calwell Canter

A good sized pack for this run (luckily, for a while there it was going to be a Pizza each!!), who wouldn't be there with Pizza on the menu! The GM made a triumphant return but he was a changed man, the run commenced 2 minutes late, very uncharacteristic. Everyone there attested that this was the perfect run and no fault could be attributed to this masterpiece, it had everything, checks, halts, vistas, maps and a drink stop. None of which seemed to matter to the pack, the walkers got lost (with a map) and some runners missing chunks of the run. The run got a magnificent score of 1.69, which the hare will take any day!

Returnees – The GM and Greasy
