

Capital HHH Run 2019 – Fishfinger – Kingston Konfusion

The Circle waited a while for Box to appear as it's not easy walking an 8.5k running trail!!

Once the circle was started by our erstwhile RA and GM they quickly went into the run report:

Girls on Film – quote “not an inspiring run”, Limited markings, flat and most heinously running near, but not into, the Capital Brewing Company. If I have this correct, the score was -2724913

The walk report by JR went something along the lines of; a good start than went downhill rapidly and a score that was immaterial due to the run score being so low

Returns

We welcomed back Dog Turd and Woof Woof from the climes of the Sunshine Coast and Lucky Bastard. There were many others who had to go in after only being one week away, the master says stiff shit, it's our new authoritarian policy and if you don't like come and see me, then be prepared for a down-down

Charges

I apologise in advance here, I was getting rewarded for being the best GM Capital has ever had so many times I may have missed a couple!

Normally I would do this in running order but Scarlett got so many it's easy just putting them all in at once- for turning the power on....off.....on....off, Power again, one with Centrefold for being so magnificent, and for stirring up the GM, well done for taking the heat off me

PP for something

Infallible for not stopping to take a breath and missed marks, also for being overdressed

Gobbles for being silly with business cards and phone numbers
