

# Capital Hash House Harriers – Run 2049 - Poo Shooter – The GM returns, Huzzah!

It appears that our fearless leadership sent a hologram of himself last week, the RA obviously missed pressing the button with the GM's message for help, which was.....save me Obi Wan. The highly disabled (yes I meant his knee) RA took charge of the pack, although during the night there was plaintive cry of "nobody is listening to me" heard! There were a few notable returnees and a visitor in what was a good sized pack, although there were murmurings that we were a bit close to Red Hill. A good run, with a gentle rise to the top of Red Hill and a good length walk for the walkers.

**Run Report** – Gerbils– A fuck you Box run (how rude), also some whinging about checks score of 5

**Walk Report –Pop tart** – Well marked, Robust lots of lovely spring flowers out, Wisteria, Photinia (Cum tree), many others a smelly delight (Pop Tart wasn't even wearing the pearl necklace) a score of 6.9

**Returnees** – Sticky Date Capt'n Pugwash, Infallible, Turkey Slap, Box

**Visitor** – Tramp Steamer from Bahrain Hash

## **Charges**

Pop Tart – for trying to charge Poo about not bringing the fire bucket, called a wuzz and false charge  
Centrefold – The conditional Powerpole is not an ACT Government asset so his charge to Scarlett was given as a false charge

Tramp Steamer – for the amazing shoes and for shit back marking (see next charge)

Gerbils – for bad advice to the visitor on marking trail

PP's – just because

Scarlett – Teflon for other charges also another charge for stretching before the run

The RA – tried to get out of the rain charge by playing the acting GM card; however, he was heard at the start of the run saying he was doing everything, so the charge sticks.
